Workforce ATM

YOUR SOURCE FOR CURRENT AND COMPREHENSIVE WORKFORCE DEVELOPMENT INFORMATION

Since its creation in 1996, the Workforce ATM has become the workforce development system's most timely and comprehensive source of information. The Workforce ATM has innovative state practices and federal updates/announcements on a variety of subjects ranging from the workforce investment system programs to resources on communications & outreach, SUTA dumping, and e-tools & technology.

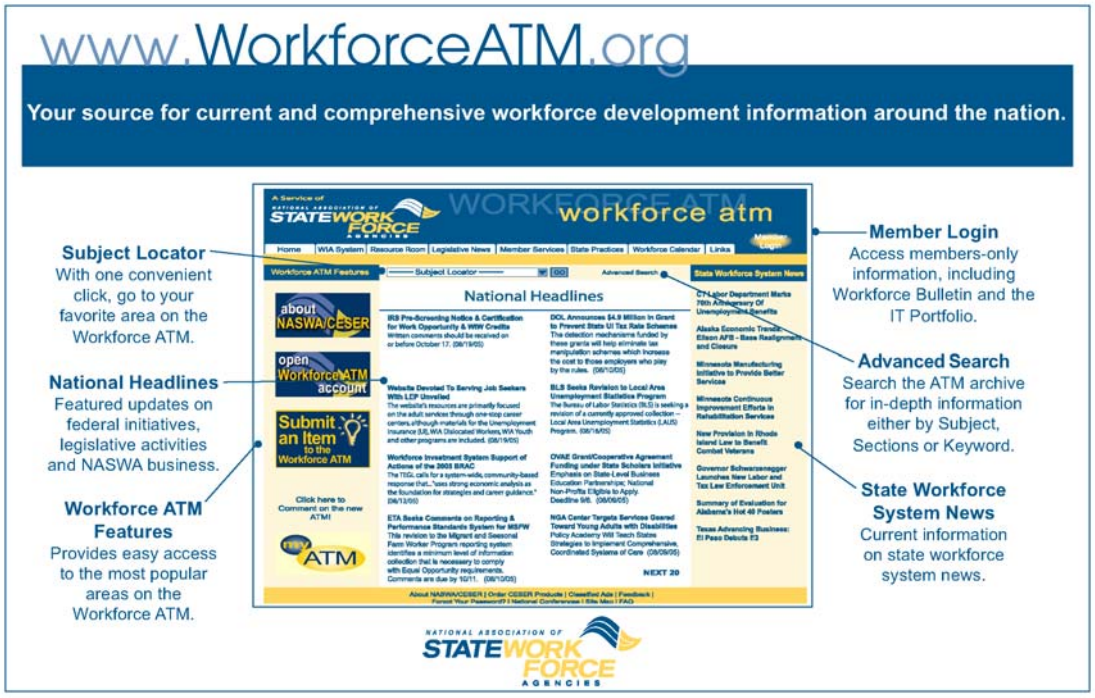
The Workforce ATM's primary goal is to strengthen the national workforce development network through information exchange, liaison and advocacy. In order to do this, NASWA needs the cooperation of states and agencies like yours to share their workforce development advancements as they happen.

Submitting Items to the Workforce ATM

Participating is easy. All you have to do is send NASWA your news releases, employee newsletters and announcements as well as any marketing materials you would like highlighted on the **Workforce ATM**. The information you send will be posted to the **Workforce ATM** in the state practices section--where other states can see what you're doing and where you can see what other states are doing.

The following are the two ways you can easily submit items for posting to the Workforce ATM web site:

- **NASWA/CESER's Workforce ATM Web Site**

Click on the "Submit An Item" on the Workforce ATM Web Site and complete the form. You can type in the link to a best practice or innovation in your state or you can attach a file.


- **E-mail** electronic version to ceser@naswa.org
